

Glowing Feathers in the Crown of Abhinav's Grand Success

Put your hands together for our Secondary students, who have continued with Abhinav's 100% result legacy. 33 of our students achieved above 90% and 85 students secured distinction. Kudos to these bright stars!

Result of Junior College of both the streams Science and Commerce is 98%.

A Warm Welcome for Tiny Tots (Ambegaon Campus)

The little ones were welcomed to Abhinav premises by the Principal Madam, Supervisor and all the teachers with colourful craft flowers and welcome cards made by the teachers. A pleasant surprise of soft toys, flowers and welcome cards at the entrance of Abhinav and well-painted walls covering the complete syllabus made the students ecstatic about their new school. They entered the classrooms with beaming faces.

International Yoga Day Celebration

To boost the energy and to enhance the concentration level, the tiny tots of Abhinav Ambegaon Campus (Pre-Primary Section) celebrated 'International Yoga Day' on 21st June 2018. They performed basic asana and meditation under the able guidance of a yoga expert.

Bouquet Making

CBSE students made the bouquet of flowers for their teachers and enacted the Eklavya story.

Gurupurnima Celebration 2018

An essential position of a teacher in everyone's life was taught to the students by reciting the well-known 'Eklavya' story on 27th July 2018 with the help of a smart board in Abhinav School's Pre-Primary Section, Ambegaon Campus.

Red Day Celebration 2018

EVENTS AND ACTIVITIES

Aashadhi Ekadashi Celebration

The Palkhi procession is an annual pilgrimage to Pandharpur. It was celebrated in our school with great zeal and enthusiasm by the tiny tots of Abhinav's Ambegaon Campus along with the Principal - Mrs. Varsha Sharma. It was organised to get the students to know more about our culture and tradition and to make them realise the importance of preaching given by Saint Dnyaneshwar and Tukaram about religious equality and humanity. Video clippings of Pandharpur, Saint Dnyaneshwar and Tukaram and warkaris were shown to the students. Students dressed as warkaris carried the beautifully decorated palkhi by singing a bhajan of Lord Vithoba and the whole school joined the festivities merrily.

Field Visit to D Mart

Pre-Primary students (CBSE) visited D Mart on 30th July 2018 as a part of their field visit.

English Club

Abhinav English Medium School, Ambegaon has taken a step forward, by starting an English Club for its students under the able guidance and inspiration of our Principal Mrs. Varsha Sharma Ma'am.

The English Club will focus on bringing out the hidden talents, polishing and refining the students, under the guidance of Club In-charge Mrs. Bindu Olga, Mrs. Trupti Joshi and Mrs. Vaishali Kalshetty. The Club started its first activity by conducting a Storytelling Competition for Std. V on 29th June 2018. The event was inaugurated by our Principal Mrs. Varsha Sharma Ma'am, Supervisor Mrs. Dhanashri Khare Ma'am and a panel of distinguished judges, Mrs. Deepa Deshpande Mam, Mrs. Kirti Patil Ma'am and Mrs. Asmita Gawli Ma'am. The students participated in the Storytelling Competition with great enthusiasm and the winners were awarded a Certificate of Merit.

Winners of Std. I, II and III:

Std. I- Miss. Bhakti Sarda

Std. II- Miss Dhanika Lashkare

Std. III- Miss Swarali Devkar

The English Club is planning to come up with many such events for the students of all grades on the literary front every month.

Investiture Ceremony

Our Primary students get the opportunity to become Junior Captains. Every year, capable students are selected to manage the other students and ensure the observation of discipline. The members pledge that they will follow the rules and regulations of the school and will ensure that others will follow them too.

Magic Show

Along with the curriculum, students must have some fun in the school, so we organised a magic show for our students. Jadugar Raghuveer showed fantastic magic tricks to the students.

A Visit to Appu Gappu Nursery

Our Std. I CBSE students visited Appu-Gappu Nursery. It was a surprise visit for the tiny tots to study about plants in practical. The students curiously enquired about the different types of plants, herbs, shrubs and climbers. It was a wonderful experience.

Guru Pournima Celebration

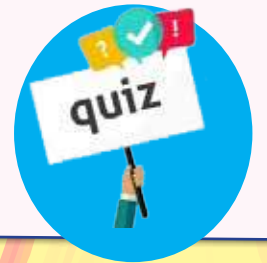

On the occasion of Guru Pournima, Handwriting Competition was organised for our students. The winners of the competition were awarded.

Innovative Quiz

A Quiz was conducted in a very creative way as a part of the studies for the students of Std. X. The fun part of the quiz was that the questionnaire was prepared by the students. They encouraged their friends to answer the questions correctly. The teachers appreciated the students' efforts.

Scintillating Saturdays at Abhinav

Every Saturday is an admirable and motivating day for all the students of Abhinav School. The school preserves Saturdays for various engaging things. Through the medium of videos, the teachers make students acknowledge the inspirational and ambitious people around the world. Many a time, the videos are based on the scientists and inventors and their dynamic inventions that changed the world and contributed immensely to the field of science. They illustrate the inventions of the great Michael Faraday which shows the relation between, light, magnet and electricity. A small screen decides the bright future of students and increases their interest and involvement in the studies. All these ameliorate the ability of the students. Saturday is a day of good values and thoughts which will help them to create a better future.

Palkhi Procession and Varkari Seva by our NSS Junior College Students

Abhinav's Initiative for Pollution Prevention

Plastic bags are one of the most widely used bags when it comes to carrying grocery items. However, these are one of the worst types of bags to use as these cause major harm to the environment. These bags get torn into small pieces over the course of time but do not get disposed of because they are non-biodegradable. They remain in the environment for years and add to land, air and water pollution.

Initiative by Abhinav School:

Today, plastic bags have become a significant cause of land pollution. The toxic chemicals produced by plastic contaminate the soil. This is hampering the growth of the plants. Since these are light and are carried by wind to different places, the agricultural land is also getting affected by them. They are deteriorating the soil quality making it less fertile. They damage the seeds sown in the ground and interfere with the growth of plants. Keeping all these things in mind, Abhinav came up with an innovative idea which is reflected in the pictures below. The students not only prepared the bags but also distributed them among the vendors and made them also realise how plastic is harmful. The students have been making these bags from last 6-7 years and been distributing them among the hawkers to reduce the usage of plastic. We are glad that even PMC has banned the usage of plastic bags.

Motivating Young Scientists

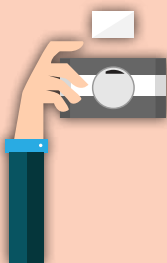

A science exhibition was organised on 25th July 2018 at our school, to inspire the students to show their scientific creativity. In the science exhibition, students were divided into four groups- electronics, environment, the solar system in space and science involved in natural calamities. In the electronics group, the students came up with projects like a burglar alarm, hanging bridge, light hanging in the air, etc. The students of environment group based their models on parts of trees, parts of leaves, types of roots. In the solar system in space, the students made things like planets, the revolution of and rotation of sun etc. In the category of science involved in natural calamities, the students made the models of erupting volcano, tsunami, earthquake, etc. There was a separate table reserved for each project. The students explained their projects whenever they were asked about it. After a quick break of delicious refreshments, the students continued with the exhibition. Our Principal Ma'am and the other teachers appreciated the students' honest efforts by calling them the future dynamic scientists of our country.

Capturing Life through a Lens

Starting Out in Photography: There are so many avenues you can take with photography these days and while on a certain journey; you may discover a new love and talent for a different area such as weddings, portraits, commercial, fashion, nightclub, schools, events, travel or stock. This indeed happened to me a year ago during my school holidays, when I first got started clicking selfies and nature photos along with my best friend

Arjun as a hobby. Initially, I used my phone camera. Gradually my interest developed and we started to rent a camera by saving upon our pocket money. I used to store the photographs on my PC. One day, my father came to know about it. It was a great surprise for me that my father appreciated those photos and bought me a DSLR (Digital Single Lens Reflex) camera, which took my interest and confidence to the next level. After a few basic pieces of training from my best friend Arjun and a few expert tips from my father, along with the help of internet tutorials, I started clicking with the DSLR camera. Now, every time I travel, I carry my camera to capture every moment of my life. My goal is to develop my hobby into a profession. Now my focus is on pursuing carrier in this field. My learning, so far, says start out by simply practising as much as possible and don't worry if you make mistakes. Take your camera everywhere with you and shoot as much as you can, after all, digital is free! Don't just take hundreds of shots and delete the poor ones. Analyse why they are poor and learn from them. Look at the settings used, look at the light, what went wrong and ask yourself how you can correct it. **"Photography is now, more than ever, accessible to everyone and there is no reason why you cannot make a living from it if you so desire."**

Gratitude

I am very thankful to the school which gave me an opportunity to write about my feelings about my school. What makes a student good is the curiosity to learn new things since childhood. I have been incredibly lucky to have found a school like 'Abhinav.' The school moulds one's personality in such a way that a student can stand on his or her feet in the future. The teachers from school always encourage the students to climb the ladder of success. Every year, Abhinav School organises various events like Sports Day, Annual Day, district level competitions, singing competitions, Science, Math and Art exhibitions to motivate the students to present their talents. The teachers in this school are so friendly that one can share with them all the problems and doubts they have. The most important value which I learnt in the school is to toil day and night for being a good citizen of India. I think I will never get such a secure and friendly atmosphere and valuable moral values from anywhere else than my school.

Five Rules of Poppy's Love

What is Poppy's love?

His love is full of care.

The first rule of his love teaches
To sacrifice our happiness,
To make others happy.

What is Poppy's love?

His love is full of innocence.

The second rule of his love teaches
That our innocence should not
Be told, it should reflect in behaviour.

What is Poppy's love?

His love is full of politeness

The third rule of his love teaches,
Politeness is a sprinkle of sweet words,
To spread happiness in the world.

What is Poppy's love?

His love is full of forgiveness.

The fourth rule of his love teaches
That forgiveness is part of humanity,
To serve the lord to the fullest.

What is Poppy's love?

His love is full of motivation and inspiration.

His fifth and last rule of love speaks,
Motivation and inspiration are two ladders,
Which can lead one to success.

Paani Foundation

Paani Foundation is a non-profit, non-governmental organisation which is active in the area of drought prevention and watershed management in the state of Maharashtra, India. The organisation was founded by noted Indian actor Aamir Khan and his wife Kiran Rao. The CEO of the Foundation is Satyajit Bhatkal. NSS students of our Junior College participated enthusiastically in the water conservation work in Taluka Purandhar and voluntarily worked for the betterment of villages.

Scout and Guide Programme

Recently, we started 'Scout And Guide' programme for the personality development of our students. In our last session, Mr. Khurade Sir explained the benefits of the same. He emphasised the fact that knowledge is essential, but one should have a developed personality too. One should be disciplined and obedient. This training helps us to join armed forces. We are thankful to our school for giving us this golden opportunity and we are sure that we will prove ourselves. The students of Std. VII and VIII participated in this programme enthusiastically.

Guru Pournima

On 27th July 2018, Guru Pournima was celebrated at the College with keeping in mind the traditions. Hon. Principal Ma'am performed Saraswati Poojan and Vyas Poojan. The same day was the opening day for Std. XI. All the students were welcomed by offering a rose.

Friendship Day

On 4th August 2018, College N.S.S. unit visited Matoshree Old Age Home. They celebrated Friendship Day with the elderly people. They tied friendship bands and shared a few moments of love and laughter with them.
